Analytics-focused professional with a master's degree in Data Analytics and 5+ years of professional experience in business operations. Developed internal portals, automated tracking systems, and reporting tools to streamline workflows, improve data accuracy, and support business decisions. Combines hands-on financial and operational analysis with technical expertise in SQL, Python, Power BI, and predictive modeling.

Skills

- **Programming & Data:** Python, SQL, PySpark, R
- **BI & Visualization:** Power BI, Tableau, IBM Cognos Analytics, Excel
- **Data Engineering:** Databricks, AWS S3, Delta Lake, SQL Server, SSAS, ETL Pipelines, Data Warehousing
- **Analytics:** Regression, Classification, Clustering, Forecasting, NLP, Statistical Analysis
- **Other:** KNIME, Git/GitHub, HTML, Database Design

Professional Experience

Office & Billing Manager / Medical Billing Specialist – Zen Attitude Wellness (Apr 2021 – Dec 2026)

- Developed websites, internal portals, and automated reporting/tracking systems using HTML and generative AI; streamlined inquiries, reduced manual work, and improved operational visibility.
- Conducted root cause analysis of claim denials, reimbursement discrepancies, and payer fee schedules; identified underpayments, resolved discrepancies, and supported reimbursement appeals.
- Managed office operations, recruitment, onboarding, and staff training; standardized workflows to improve team coordination, operational efficiency, and reporting accuracy.

Student Director of Finance – Washington State University (Sep 2022 – Apr 2023)

- Analyzed budget requests, expenditures, and funding priorities; prepared and presented financial reports and funding recommendations to support resource allocation decisions.
- Monitored budget utilization and improved expense tracking and financial documentation, strengthening reporting accuracy, transparency, and financial oversight.

Administrative Assistant – U&T Financial (Jul 2021 – Dec 2021)

- Verified confidential financial records, identified documentation discrepancies, and maintained data accuracy and regulatory compliance.
- Coordinated with financial institutions and internal teams to resolve account issues and streamline transaction processing.

Marketing Team – CDM Digital Advertising Agency Worldwide Inc. (Dec 2021 – Apr 2021)

- Conducted market research and supported advertising design and marketing initiatives.

Student Ambassador & Student Senator – Everett Community College (Dec 2018 – Dec 2020)

- Represented student interests, coordinated outreach activities, and supported campus initiatives.

Projects

Concrete Mix Decision Intelligence | Python, Streamlit, Plotly, Machine Learning (View Project)

- Interactive decision-support app for strength prediction, mix simulation, and cost-efficiency optimization; actionable recommendations for lab validation.

Credit Risk Analysis & Decision Dashboard | Python, Power BI, Logistic Regression (View Project)

- Built predictive risk model and interactive dashboard; adjustable thresholds to evaluate default risk, missed defaults, and review workload.

Dog Shelter Business Intelligence | SQL Server, SSAS, Excel, Data Warehousing (View Project)

- Built data warehouse, analytical cube, and dashboards; analyzed adoption trends, foster duration, and veterinary costs to support resource planning.

Education

- **Master of Science in Data Analytics** | Seattle Pacific University | Dec 2026 | GPA: 3.97
- **Bachelor of Arts in Business Management** | Washington State University |Dec 2023 | GPA: 3.96
