ZEN ATTITUDE ACUPUNCTURE

Letter of Recommendation for Selena Cha

To Whom It May Concern,

It is my pleasure to recommend Selena Cha, who has been a valued member of our team at Zen Attitude Acupuncture since 2021 and has served as our Office Manager since December 2024. As a co-owner of the clinic, I have had the opportunity to work closely with Selena and witness her professional growth, dedication, and exceptional ability to identify challenges and develop meaningful solutions. As she completes her Master of Science in Data Analytics and pursues opportunities in business analytics, I am confident that she will be an asset to any organization fortunate enough to have her.

One of Selena's greatest strengths is her ability to independently recognize operational inefficiencies and take the initiative to address them. Rather than simply identifying a problem or waiting for direction, she consistently takes ownership of the situation, develops thoughtful strategies, and implements practical solutions. This combination of analytical thinking, resourcefulness, and follow-through has made her an invaluable member of our management team.

Selena has been particularly instrumental in improving our clinic's billing processes. Among her accomplishments, she developed an HTML-based billing inquiry form using AI-assisted development tools, as well as Excel-based calculators for determining patient financial responsibilities and spreadsheets for tracking billing-related information. These projects demonstrate her ability to leverage technology, organize complex information, and create practical tools that address real operational needs.

More importantly, her contributions have produced meaningful results. The systems and processes Selena developed have reduced confusion among our billing staff, improved patients' understanding of their financial responsibilities, decreased billing errors, and helped protect the clinic from revenue loss associated with billing issues. In a healthcare setting, where insurance billing can be particularly complicated, these improvements have made a genuine difference in both our daily operations and the experience of our patients.

What I find especially impressive is Selena's ability to see beyond an immediate problem and consider how a better system could prevent similar issues in the future. She understands that effective solutions require not only accurate information and sound analysis, but also tools and

processes that other people can easily understand and use. Her work reflects a valuable combination of technical curiosity, business awareness, and practical problem-solving skills.

In addition to these accomplishments, Selena has demonstrated strong leadership and organizational abilities in her role as Office Manager. Managing a busy healthcare practice requires balancing the needs of patients, practitioners, and administrative staff while maintaining accuracy, professionalism, and efficiency. Selena has approached these responsibilities with dedication and a genuine commitment to the success of our clinic.

I have also admired Selena's commitment to her own professional development. Completing a master's degree while managing the responsibilities of a healthcare office speaks to her ambition, perseverance, and work ethic. I have been particularly pleased to see her apply her growing knowledge and technical skills to challenges within our practice, translating what she has learned into improvements with tangible business value.

Although we will certainly miss having Selena as part of our team, I am excited for her to pursue new opportunities that will allow her to further develop her analytical and professional skills. Her ability to independently identify problems, develop innovative solutions, and implement improvements that benefit both an organization and the people it serves will translate exceptionally well into a career in business analytics.

I recommend Selena Cha with confidence and enthusiasm. I am grateful for the contributions she has made to Zen Attitude Acupuncture, and I have no doubt that she will bring the same initiative, intelligence, and dedication to her future endeavors.

Sincerely,

Jeremy Frieling, L.Ac., Dipl. O.M.
